

Manual Hydraulic Lift Table Truck

This manual hydraulic lift table truck has a loading capacity from 300 to 750kg. Its lifting height ranges from 900-1000mm.

Product Overview

Manual Hydraulic Lift Table Truck

This manual hydraulic lift table truck is designed for efficient, heavy-duty material handling in professional environments. Featuring a robust scissor lift mechanism and a reliable hydraulic cylinder, it offers smooth, controlled height adjustment for various loads. Its heavy-duty steel construction ensures durability and stability, making it an essential tool for transporting and lifting items safely.

Performance Specifications
