

Manual Hydraulic Stacker

This manual hydraulic stacker is designed for lifting and transporting heavy loads in industrial environments. It features a robust steel frame, adjustable forks, and a hand-operated hydraulic pump for raising and lowering materials.

Product Overview

Manual Hydraulic Stacker

This manual hydraulic stacker is engineered for efficient lifting and transporting of heavy loads within industrial settings. Built with a robust steel frame, it ensures durability and reliability for daily operations in warehouses and workshops. The unit features an intuitive hand-operated hydraulic pump, adjustable forks for versatile material handling, and a safety mechanism designed to prevent overloading during use.

Technical Specifications

Operation	Manual Hydraulic
Frame Material	Robust Steel
Key Features	Adjustable Forks, Hand-Operated Pump, Safety Overload Mechanism, Easy Maneuverability

Application

Ideal Environments

- Warehouses
- Workshops
- Factories
- Industrial Facilities
