

Manual Liquid Sprayer with Brass Nozzle

This is a manually operated spraying device for dispensing liquids. It features a brass nozzle with adjustable spray patterns and connects to a standard plastic bottle.

Product Overview

Manual Liquid Sprayer

This manually operated spraying device is engineered for the efficient dispensing of liquids, including pesticides, herbicides, and various cleaning solutions. It features a durable brass extension wand and an adjustable brass nozzle, allowing users to customize spray patterns for specific tasks. Designed for versatility and ease of use, it attaches securely to standard plastic bottles, making it an ideal tool for professional gardening, pest control, and general maintenance applications.
