

Manual Metal Shear

This manual metal shear is designed for cutting metal bars and sheets. It features a robust steel frame and a long lever arm to provide significant cutting force.

Product Overview

Heavy-Duty Manual Metal Shear

This robust manual metal shear is engineered for precision cutting of metal bars and sheets in demanding environments. Featuring a heavy-duty steel frame, it offers exceptional stability and durability for consistent performance. The extended lever arm design provides significant mechanical advantage, allowing operators to achieve clean, accurate cuts with minimal physical effort.

Technical Specifications

Cutting Capabilities

- Metal Bars
- Metal Sheets

Frame Material	Steel
Frame Color	Yellow
Operation Type	Manual
Suitable Applications	Workshops, Construction Sites, Industrial Settings
