Detailed view of the splitter mechanism, highlighting the blade system, block support shelf, and ergonomic features for professional use.

Key Features

- 530mm Blade Length
- Hardened blade for longer operating life
- Spring supported platform
- Smooth splitting action
- Integrated wheels for high maneuverability
- Lever-action mechanism for reduced operator effort

Components

Component	Function
Moving Upper Blade	Provides downward force for splitting
Fixed Lower Blade	Provides stable base for material
Block Support Shelf	Holds block securely prior to cutting
Telescopic Lever	Enhances leverage for easier operation
