

Manual Pipe Cutter

This pipe cutter is designed for cutting pipes. It features a cutting wheel, guide rollers, and a T-handle for easy grip and adjustment, ensuring precise and clean cuts on various pipe materials.

Product Overview

Professional Manual Pipe Cutter

This manual pipe cutter is designed for clean and precise cuts on pipes ranging from 10mm to 60mm in diameter. Featuring a durable Kirstite construction and a specialized spraying plastic finish, it offers excellent resistance to wear in demanding plumbing and HVAC environments. The tool is equipped with an ergonomic T-handle for easy manual adjustment and reliable guide rollers for consistent operation.

Technical Specifications

Model	ZSTG60
Cutting Capacity	60 mm
Body Material	Kirstite
Surface Treatment	Spraying Plastic

Key Features

Product Highlights	Manual Operation, HVAC Compatible, Plumbing Grade, Precision Cutting
