Product Overview

Versatile Metal Forming Solution

The SS-18 Manual Shrinker and Stretcher is a high-performance tool engineered for precision sheet metal shaping. It allows fabricators to create professional S-forms by contracting metal for inside curves and expanding it for outside curves. With its robust construction and manual lever operation, this machine provides the control and durability necessary for demanding automotive and industrial fabrication projects.

Technical Specifications

Model	SS-18
Capacity	1.2mm / 18Ga
Throat Depth	25.4 mm

Logistics

Weight

5.5 kg
Net Weight

5.8 kg
Gross Weight

Packing Size	46 x 20 x 13 cm
