

Manual Tube Bender Set

This manual tube bender set is designed for various bending applications. It includes mini tube benders with 90° and 180° capabilities, a 4-in-1 curving plier, and standard tube benders suitable for bending tubes with outside diameters of 6mm, 8mm, and 10mm, built for micro bore central heating and hydraulic pipes.

Product Overview

Versatile Manual Bending Solution

This comprehensive manual tube bender set is engineered for precision bending in micro bore central heating and hydraulic pipe applications. Featuring a range of tools including 90° and 180° mini benders and a versatile 4-in-1 curving plier, the set offers unmatched flexibility for professional installers. Designed for efficiency, these tools are calibrated to handle left, right, or offset bends on 6mm, 8mm, and 10mm diameter tubing.

Technical Specifications

Bending Angle Range

90 degrees

Minimum Angle

180 degrees

Maximum Angle

Supported Diameters

6mm, 8mm, 10mm, 12mm, 14mm, 16mm, 19mm, 22mm, 25mm

Model Catalog

Item Reference Guide

Article Number	Supported Sizes (mm)	Type
645101	19	180° Mini Bender
645102	19	90° Mini Bender
645103	16-25	Standard Bender
645104	16, 19, 22	Standard Bender
645105	10, 12, 14, 16	Standard Bender
645106	16-25	Standard Bender
645121	10	4-in-1 Curving Plier
