

Manual Wood Cutting Hand Saw

This hand saw is designed for cutting wood and other materials. It features a durable blade and ergonomic handle for comfortable use.

Product Overview

Professional Wood Cutting Performance

This manual wood cutting hand saw is engineered for precision and durability in woodworking and construction environments. Featuring a robust 0.9mm blade thickness and a 400mm length, it provides the stability needed for clean, efficient cuts. The 7TPI (teeth per inch) configuration is optimized for balanced cutting speed and smooth finish on various wood materials.

Technical Specifications

Blade Length	400 mm
Blade Thickness	0.9 mm
Teeth Per Inch	7 TPI

Key Features

Performance Metrics

7 TPI Teeth Density	0.9 mm Blade Gauge
Applications	Woodworking, Construction, General Carpentry
