

# Marble Cutting Diamond Blade

This diamond blade is designed for cutting marble. It features a segmented rim and steel core for efficient material removal, stability, and clean cuts.

## Product Overview

### Precision Marble Cutting Solution

This diamond blade is specifically engineered for high-performance marble cutting, featuring a specialized segmented rim that ensures efficient material removal. Built with a robust steel core, the blade provides the stability and durability required for professional-grade results. It is designed to deliver clean, precise cuts with minimal chipping, making it an ideal choice for detailed stone work.

## Technical Specifications

### Operational Requirements

- Requires appropriate arbor size
- Coolant recommended for heat reduction
- Coolant recommended for dust suppression

### Design Features

Segmented Rim • Steel Core • Precision Cutting

### Compatible Tools

Angle Grinders, Circular Saws
