Product Overview

Marine Fire-Rated Solutions

These marine fire-rated doors are engineered for high-performance safety in maritime environments, including ships and offshore platforms. Constructed with robust, fire-resistant materials, they provide an essential barrier against flames and smoke. Available in multiple fire ratings, these doors integrate functionality with durability, featuring secure locking mechanisms and ventilation options to meet stringent international safety standards.

Compliance & Ratings

Certification

IMO Certified

Fire Ratings

A-60, A-0, B-15, B-0

Technical Features

Key Features

- Reinforced door leaf construction
- High-temperature resistance
- Secure locking mechanism
- Integrated ventilation louvers
- Durable frame design

Suitable Applications

- Commercial Ships
- Offshore Platforms
- Marine Structures
