

Marine Immersion Suit with Buoyancy Pillow

This marine immersion suit is constructed from 5mm thick neoprene. It features an integrated buoyancy pillow, removing the need for a separate lifejacket.

Product Overview

Essential Maritime Safety

The 147N Marine immersion suit is a critical safety solution engineered for maritime environments, providing essential thermal protection and buoyancy. Designed for rapid deployment, it ensures wearers remain insulated and afloat in cold water conditions. This suit is an indispensable asset for offshore workers and seafarers, significantly enhancing survival chances during emergency situations.
