Overview

High-Performance Marine Propulsion

This 25 HP outboard engine is engineered for reliable performance in diverse aquatic environments, including saltwater. Featuring a robust construction with a durable gray finish, it is designed for efficient power delivery on small to medium-sized boats. The unit includes a user-friendly tiller handle, safety lanyard, and a streamlined engine cover, ensuring both ease of control and operational longevity.

Technical Specifications

Power Output

25 HP

Horsepower

Design Features

Vertical shaft configuration, Water-cooled system, Tiller handle control, Saltwater-resistant construction

Equipment & Accessories

Included Components

- Propeller
- Mounting bracket
- Safety lanyard
- Tiller steering handle
