

# Marine Steel Weathertight Door

This marine weathertight door is available in steel or aluminum, with quick-acting and hydraulic sliding options. Fireproof and gastight door models are also available.

## Product Overview

### Marine Steel Weathertight Door

This high-quality marine steel door is engineered for reliability and durability in demanding maritime environments. Designed to provide a secure and weathertight seal, it protects vessel interiors from harsh weather elements and water ingress. The robust steel construction ensures long-lasting performance, making it an essential safety and access component for ships and boats.
