Product Overview

High-Performance Marine Transmission

This marine transmission gearbox is engineered for reliable and efficient power transmission in diverse maritime applications. Designed with precision and durability in mind, the unit ensures smooth operation and extended service life even in demanding conditions. It features robust, heavy-duty construction with multi-part housing, offering excellent resistance to harsh marine environments and high-torque performance for propulsion systems.

Available Models

- MF06
- MF16A
- MF20
- MF30A
- MF100
- MF125
- MF40A
- MF170
- MF120B
- MF135
- MF142
- MF242

Engineering & Design

Construction Features

Heavy-Duty Cast Housing • Corrosion Resistant Finish • High-Torque Design

Customization Capabilities

Custom Engineering, R&D Support, Bespoke Design
