

Marine Vertical Deep-Well Oil Pump with Bronze Impeller

This self-priming centrifugal marine oil pump features a 100% bronze impeller. Available in sizes from 25-250mm, it can be driven by a motor or engine.

Product Overview

Marine Vertical Deep-Well Oil Pump

The CJY series vertical deep-well oil pump is specifically engineered for efficient lubricating oil transfer within marine environments. Featuring a long-shaft design, this pump facilitates effective circulation between upper and lower cabins, serving as a modern replacement for traditional bulkhead drive devices. Its vertical configuration minimizes floor space requirements while delivering high operational efficiency, light operation, and simplified maintenance, making it an ideal choice for oil tankers.

Key Features

Operational Highlights

Vertical Design, Deep-Well Capability, High Efficiency, Space Saving, Easy Maintenance

Technical Specifications

Performance Parameters

Model	Capacity (m³/h)	Head (m)	Speed (r/min)	Motor Power (kW)
CJY200-7	158	45	1480	45
CJY200-5.5	175	50	1480	75
CJY200-7 (60Hz)	190	50	1780	75
CJY200-5.5 (60Hz)	210	72	1780	132

Rotation Direction

Clockwise (viewed from top of motor)
