

Marking Pens for Garment and Shoe Production

These marking pens are designed for use in garment and shoe production. The set includes four pens with different colored caps and tips.

Product Overview

Precision Marking for Textile Applications

These marking pens are designed specifically for the rigorous demands of garment, shoe, and accessory production environments. Featuring a reliable cylindrical design with a secure cap clip, they offer consistent ink flow for accurate layout and pattern marking. The set provides four distinct color options, ensuring clear visibility across a variety of fabric and material types.
