

Masonry Chisel Set - 12 Piece Hardened Steel Construction

This 12-piece masonry chisel set is designed for shaping, cutting, and removing brick, stone, and concrete. Constructed with hardened steel, the chisels offer durability and long life, while the ergonomic handles provide comfort and control.

Product Overview

Professional Masonry Chisel Set

This 12-piece masonry chisel set is engineered for heavy-duty construction tasks including shaping, cutting, and removing brick, stone, and concrete. Each tool is constructed from hardened steel to ensure exceptional durability and a long service life under demanding conditions. The ergonomic handles are designed to provide maximum comfort and precise control for professional users during extended periods of use.
