Product Overview

Professional Masonry and Stone Cutting Solution

This high-performance masonry and stone saw is engineered for precision and durability in demanding construction environments. It features a robust frame for stability and a powerful motor designed to handle various stone materials with ease. Equipped with an integrated water cooling system, the unit effectively minimizes dust while extending the operational life of the cutting blade.

Electrical Specifications

Voltage	220V
Frequency	50 Hz
Phase	Single phase

Performance Metrics

Key Performance Metrics

2200 W

Power Output

2800 RPM

Speed

Dimensions and Capacity

Machine Specifications

Parameter	Value
Blade Diameter Range	300-350 mm
Max Cutting Depth	110 mm
Table Size	700 mm
Arbor Size	25.4 mm
Height	76 cm
Overall Dimensions	115 x 56 x 62.5 cm
