Product Overview

Professional Masticating Slow Juicer

This masticating slow juicer model JSJ-04 is engineered for optimal nutrient preservation through low-speed extrusion technology, which minimizes oxidation and prevents juice delamination. The unit is powered by a robust 200W DC copper motor, ensuring high juice extraction rates while maintaining quiet operation. Designed for convenience and reliability, it features an easy-to-clean ABS injection body and is fully certified for international safety and quality standards.

Technical Specifications

Core Performance

200 W

Motor Power

80 db

Noise Level

Power Supply

- 220-240V 50-60Hz
- 100-120V 60Hz

Compliance & Certifications

Certifications

ETL, CETL, CE, CB, GS, RoHS, LFGB, REACH
