

# MC-146 and MC-156 RoHS Compliant Electronic Components

Electronic components MC-146 and MC-156 are RoHS compliant. These components are surface mount devices (SMD) used in electronic circuits.

## Product Overview

### High-Reliability Electronic Components

These surface mount electronic components, designated as the MC-146 and MC-156 series, are designed for precision and reliability in modern electronic circuitry. Both models are fully RoHS compliant, ensuring adherence to international environmental standards for hazardous substances. These components are suitable for a wide range of industrial and consumer electronics applications where compact, reliable timing or signal processing is required.

## Technical Specifications

### Part Number Reference

Model	Part Number
MC-146	Q14MC146xxxxx00
MC-156	Q14MC156xxxxx00

Regulatory Compliance	RoHS Compliant
