

Meat Grinder Knife Replacement

This is a replacement knife for meat grinders. It is constructed from durable, food-grade stainless steel and features a four-blade design for efficient meat processing.

Product Overview

High-Performance Meat Grinder Replacement

This replacement knife is engineered for efficiency and durability in meat processing applications. Constructed from food-grade stainless steel, it ensures hygiene and long-lasting performance in commercial or residential kitchen environments. The precision-engineered four-blade design provides consistent results, while the standard square bore ensures a secure, slip-free fit on compatible grinder drive shafts.
