Product Overview

Professional Medical Storage Solution

This compact medical refrigerator is engineered for the secure storage of temperature-sensitive items such as pharmaceuticals, vaccines, and biological samples. It features a reliable compressor-based cooling system with forced-air circulation to ensure a stable internal environment. Designed for laboratory and pharmacy use, the unit includes a secure locking mechanism, adjustable shelving, and a dual-layer glass door for visibility and security.

Technical Specifications

Cooling System	Compressor-based, no-frost, anti-vibration, circulated air
Temperature Range	2°C to 8°C
Internal Temp Difference	Within 2°C
Refrigerant	R134a, R600a

Physical Dimensions

Dimensions (W x D x H)	445 x 458 x 539 mm
Net Weight	25 kg
Gross Weight	27 kg

Features & Construction

Door Construction	2-layer glass door with lock
Internal Lighting	White LED
Shelf Type	White plastic-coated shelves

Electrical Requirements

Power Supply

- 110V/60Hz
- 200-240V/50Hz
