

# Medical Waste Disposal Bag

These medical waste bags are made of air-tight PE plastic, preventing leakage. They measure 80x90 cm.

## Product Overview

### Professional Medical Waste Containment

These medical waste disposal bags are engineered for the safe and compliant handling of biohazardous materials in healthcare settings. Constructed from durable, air-tight polyethylene (PE) plastic, they provide a reliable barrier against leaks and contamination. Designed for hospitals, laboratories, and clinics, these bags ensure that soiled material waste is contained securely during disposal.

## Technical Specifications

Material	Polyethylene (PE) plastic
Dimensions	80 x 90 cm
Leak Prevention	Yes

## Compliance & Usage

### Safety Features

Biohazard Symbol • Puncture-Resistant • Clear Labeling

Suitable Environments	Hospitals, Clinics, Laboratories, Healthcare Facilities
