

Medium-Duty Airless Paint Sprayer

This medium-duty airless paint sprayer is designed for various coating applications. It features a brushless motor that enhances durability and performance.

Overview

Professional Medium-Duty Performance

The CY2310 airless paint sprayer is engineered for medium-sized coating projects, offering a reliable solution for applying oil paints, emulsions, primers, and latex. Equipped with an intelligent brushless DC motor, it provides consistent pressure control and maintenance-free operation. Its digital automatic controller allows for real-time monitoring of machine data and usage, ensuring high efficiency and smooth, professional-grade spraying results.

Technical Specifications

Maximum Flow Rate

2.3 L/min

Flow Rate

Rated Power	1.1 kW
Maximum Working Pressure	22.1 MPa
Rated Voltage	220 V
Machine Weight	25 kg
Maximum Support Nozzle	519

Applications

Compatible Materials	Oil Paint, Emulsion, Primer, Filling Paint, Latex Paint
----------------------	---

Features

Key Advantages

- Digital automatic controller for easy data monitoring
- Brushless DC motor for maintenance-free operation
- Automatic pressure adjustment based on material requirements
- Integral lower pump body design
- Tool-free elastic oil pumping system for easy cleaning

Standard Configuration

Included Components

Item	Specification
High Pressure Pipe	15 meter (1/4 connector)
Spray Gun	AG08 (250BAR)
Nozzle	517
