Product Overview

Versatile Medium-Duty Mobility Solution

This medium-duty caster is engineered for reliable performance in industrial, commercial, and residential environments. Featuring a durable polyurethane (PU) tire bonded to a robust core, it offers an optimal balance of wear resistance and floor protection. The integrated swivel design allows for 360-degree maneuverability, while the included rubber expandable adapter ensures secure and versatile mounting across various equipment types.

Technical Specifications

Load Capacity

50 kg

Minimum Load

65 kg

Maximum Load

Wheel Material	Polyurethane (PU) tire with gray core
Swivel Design	Yes
Mounting Method	Swivel Top Plate, Rubber Expandable Adapter

Applications

Recommended Applications

- Carts
- Equipment stands
- Furniture
- Industrial equipment
- Commercial fixtures
