

Medium Pressure Gravity Feed Spray Gun

This medium pressure spray gun features a gravity-feed cup for efficient material delivery. Its adjustable fluid and air controls allow for precise customization of spray patterns and material flow.

Product Overview

Professional Medium Pressure Spray Gun

The R100-G is a medium pressure spray gun engineered for versatile coating applications. Featuring a gravity-feed system for efficient material delivery, this tool is designed to achieve smooth and consistent finishes. Its ergonomic construction ensures comfortable handling during extended use, making it a reliable choice for precise spray patterns and controlled material flow.

Technical Details

Feed System	Gravity Feed
Pressure Category	Medium Pressure
Model Identifier	R-100

Key Features

Adjustable Controls

- Adjustable fluid control
- Adjustable air control
- Customizable spray pattern

Applications	Coating, Professional Use, DIY Projects
