

Memory Card Reader

This is a memory card reader. It allows for the transfer of data from memory cards to a computer.

Product Overview

Professional DMX Lighting Controller

This DMX lighting controller is engineered for precise management of stage lighting and visual effects in professional entertainment venues. It features intuitive faders for real-time intensity adjustments and dedicated scene selection buttons for seamless transitions. Equipped with an LCD display for clear monitoring, this unit provides comprehensive control over complex lighting setups, including MIDI/File integration and programmable scene sequences.

Technical Specifications

Control Interfaces

- Manual faders for intensity adjustment
- Dedicated scene selection buttons
- LCD monitoring display
- MIDI/File support
- Programmable scene management
- Tap Sync functionality
