

Memory Foam Car Lumbar and Cervical Support Kit

This car kit includes a high-density memory foam cervical pad and lumbar support pad designed for optimal comfort and posture while driving. Both items feature a removable and easy-to-clean design with a breathable coat and delicate details.

Product Overview

Ergonomic Comfort Solution

This car support kit features a high-density memory foam cervical pad and lumbar support pad designed to enhance posture and comfort during driving. The cervical pad provides smart support to relieve neck stiffness and pressure, while the lumbar pad helps correct seating posture. Both components are designed for easy maintenance with removable, breathable covers.

Material & Design

Primary Material	High-density memory foam
