Men's Polycotton Cargo Work Pants with Reinforced Knees

These men's cargo pants are constructed from durable polycotton fabric. They feature reinforced knee parts for enhanced durability and multiple pockets for storing tools and essentials.

Product Overview

Professional Workwear Solution

These durable cargo work pants are engineered for demanding environments, including oil, gas, mining, and factory settings. Featuring reinforced knee construction and triple-stitched seams, they provide exceptional longevity and protection for active professionals. With multiple storage pockets and a reliable PVC zipper, these pants combine practical functionality with rugged performance.
