

Mesh Pebble Fishing Bit

This mesh pebble fishing bit functions as a fishing sinker. It is designed to be filled with pebbles or other small weights.

Overview

Mesh Pebble Fishing Bit

The Mesh Pebble Fishing Bit is a specialized drilling tool designed for challenging geological environments. Featuring a pick-style cutting mechanism, this bit is engineered to handle demanding conditions including hard rock and rebar-reinforced concrete. It offers a robust solution for professional drilling operations requiring high-performance structural integrity.

Technical Specifications

Cutting Tool Type	Pick
Applicable Formations	Hard Rock, Rebar Concrete
Customization	Yes
Note	Technical parameters can be customized according to customer needs.
