

Metal Casting and Forging Machine

This machine is designed for metal forming applications. It features a robust construction with a vertical orientation and includes a control panel.

Overview

Industrial Metal Casting and Forging Solution

This metal casting and forging machine is engineered for high-precision metal forming applications in industrial environments. Featuring a robust, vertical design, the unit is constructed with durable metal panels finished in a professional white and blue color scheme. It includes an integrated control panel with a viewing window, optimized ventilation, and a side-mounted motor to ensure consistent performance and reliability during processing.

Technical Specifications

Orientation	Vertical
Construction Features	Metal Panels, Industrial Grade, White and Blue Finish

Control and Operation

Control Interface

- Integrated control panel
- Viewing window for process monitoring
- Ventilation grills for heat management

Power and Drive

Motor Configuration	Side-mounted motor
