

Metal Cut-Off Saw

This cut-off saw is designed for precise and efficient cutting of metal and other materials. It features a powerful motor, durable construction, and adjustable vise for secure workpiece holding.

Overview

High-Performance Metal Cutting Solution

The KCS355S Metal Cut-Off Saw is engineered for professional metal fabrication and construction tasks requiring precision and power. Featuring a robust 2300W motor and a 355mm blade, it delivers efficient cutting across various steel profiles including round, square, and angled sections. The integrated spark guard and adjustable vise ensure a safe and secure working environment for demanding industrial applications.

Technical Performance

Core Performance

2300 W

Power Rating

4000 RPM

No-Load Speed

355 mm

Blade Diameter

Model Number

KCS355S

Cutting Capacity

Maximum Cutting Capacity

Profile Type	Maximum Dimension
Round Steel	130 mm (Diameter)
Square Steel	120 mm
Rectangle Steel	120 x 130 mm
Angle Steel	140 x 140 mm

Key Features

Operational Features

- Powerful 2300W high-torque motor
- Adjustable vise for secure workpiece holding
- Quick-release blade change system
- Integrated spark guard for operator safety
- Durable construction for industrial use

Applications

Ideal For

Metal Fabrication • Construction • Maintenance • Industrial Cutting
