

Metal Cut-Off Saw

This cut-off saw is designed for precision metal cutting. It features a robust construction and a powerful motor for efficient operation.

Overview

Industrial Metal Cutting Performance

This high-performance abrasive cut-off saw is engineered for precision in industrial and workshop environments. Featuring a robust 4kW motor and an anti-burr vice system, it delivers clean, accurate cuts on round pipes, angle steel, and flat steel profiles. Designed for safety and efficiency, it includes a 24V low-voltage control system and is suitable for demanding applications in architecture, metallurgy, and petrochemical sectors.

Technical Specifications

Blade and Speed

350 mm
Blade Size

4300 rpm
Blade Speed

Motor Power	4 kW
Drive System	Belt
Vice Opening	190 mm

Cutting Capacity

Cutting Capacity Matrix

Orientation	Circular	Rectangular
90°	120mm	80x120mm
45°	105mm	90x100mm
