Product Overview

High-Performance Cutting Wheel

This professional-grade grinding wheel is engineered for precision metal cutting applications. Designed for compatibility with standard angle grinders, it delivers efficient material removal and reliable performance. Compliant with international safety standards, this tool is built for durability and consistent results in demanding industrial environments.

Technical Specifications

| | |
|--------------------|--------------------|
| Dimensions | 180 x 3 x 22.23 mm |
| Specification Code | T42-A30P5BF2 |

Performance Metrics

Operational Limits

| | |
|--------------------------------------|----------------------------|
| 80 m/s Max Operating Speed | 8500 rpm Max RPM |
|--------------------------------------|----------------------------|

Compliance and Safety

Required Protection

- Eye protection
- Face protection
- Hand protection

| | |
|-----------|----------|
| Standards | EN 12413 |
|-----------|----------|

Application

Compatible Materials

Metal • Stone
