## Product Overview

### Heavy-Duty Metal Suction Lifter

This heavy-duty suction cup lifter is engineered for the safe handling and transport of smooth, non-porous materials such as glass, tile, and sheet metal. Featuring a robust metal handle and high-strength suction pads, it offers a secure and reliable grip for demanding industrial and construction tasks. The ergonomic design includes quick-release levers for efficient attachment and detachment, ensuring optimal productivity and safety on the job site.

## Technical Specifications

### Compatible Surfaces

- Smooth glass
- Polished tile
- Sheet metal
- Non-porous surfaces

### Key Features

Corrosion Resistant • Quick-Release Levers • Ergonomic Handle • Heavy-Duty

Construction Material	Polished Metal
Pad Configuration	Dual-Cup (2 Pads)
Ideal Applications	Glass Handling, Tile Installation, Automotive Repair, Construction, Sheet Metal Moving
