

Metal Garden Shovel with U-Handle

This garden shovel features durable metal construction. Its U-shaped handle attachment provides enhanced leverage and control for effective digging and weeding.

Product Overview

Professional Grade Garden Shovel

This heavy-duty garden shovel is engineered for maximum durability and performance in demanding landscaping tasks. It features a robust metal construction designed to withstand significant pressure during digging and weeding operations. The innovative U-handle attachment point provides enhanced leverage and control, allowing for more ergonomic operation compared to standard shovel designs.

Technical Details

Intended Use

- Digging
- Weeding
- Landscaping

Construction Material

Reinforced Metal

Key Features

Heavy-duty, U-handle design, Sharpened edge, High-leverage
