

Metal Link Chain

This metal link chain is suitable for various industrial and hardware applications. The chain is constructed from a durable metal alloy with connected oval or rectangular links, providing a flexible and strong structure.

Product Overview

Durable Metal Link Chain

This metal link chain is engineered for versatility and strength, featuring a robust construction suitable for various industrial and general-purpose applications. The design utilizes high-quality metal alloy links in an oval-rectangular configuration, ensuring both flexibility and structural integrity. Available in multiple link counts, this chain is designed to meet diverse operational requirements where reliable connection or suspension is needed.

Technical Specifications

Key Attributes

Flexible • Durable • Industrial Grade

Material	Metal Alloy (Steel)
Link Shape	Oval / Rectangular
Link Counts	3 Links, 4 Links, 5 Links
