

Metal Stand Fan for Ventilation

This metal stand fan is designed for effective ventilation and cooling. Its durable metal construction includes a protective fan guard and a stable base, suitable for both industrial and home environments.

Product Overview

High-Performance Metal Ventilation Fan

This robust 30cm metal floor fan is engineered for effective ventilation and cooling in both industrial and residential settings. Featuring a durable full-copper motor and a sturdy black metal construction, it offers reliable performance and longevity. With three adjustable speed settings and an adjustable tilt mechanism, this fan provides customizable airflow to suit various environmental needs.

Technical Specifications

Rated Power	50 W
Voltage/Frequency	220-240V~50Hz
Motor Material	Full-copper
Speed Settings	3

Design & Features

Fan Diameter	30 cm
Color Finish	Black
Tilt Adjustment	Yes
Control Method	Rotary switch

Safety & Compliance

Insulation Class	Class I
Plug Type	VDE plug
