

Metal Table Base with Three-Legged Support

This heavy-duty table base is made from durable metal and finished in gray. It features a square mounting plate for secure tabletop attachment, a cylindrical support column, and a three-legged base for stability.

Product Overview

Professional Grade Table Support

This heavy-duty table base is engineered for stability and durability in high-traffic environments. Featuring a robust three-legged design and a secure square mounting plate, it provides a solid foundation for various tabletops. Its versatile gray metal finish makes it an ideal choice for both commercial hospitality settings and residential spaces.
