

Micro Precision Electric Grinder for Crafting and Polishing

This precision electric grinder is designed for detailed grinding and polishing tasks. It features a variable speed control dial and a foot pedal for hands-free operation.

Product Overview

Precision Performance for Detailed Work

This micro precision electric grinder is a versatile tool engineered for intricate grinding, shaping, and polishing tasks. It features a variable speed control system, allowing users to achieve optimal results across a wide range of materials. Designed for professional use, it includes convenient features like a foot pedal for hands-free operation and a secure chuck system, making it an ideal choice for electronics, jewelry making, dental, and hobbyist applications.

Technical Specifications

Maximum Speed

35000 RPM

Speed

Model Identifier

JD105-H

Applications

Suitable Applications

Nail Care, Craft Carving, Denture Polishing, Artificial Limb Polishing, Mould Polishing, Electronics, Jewelry Making

Features

Control Features

- Variable speed control dial
- Foot pedal for hands-free operation
- Secure chuck for bit retention
