

Micro Precision Electric Grinder for Crafting and Polishing

This electric grinder is designed for precision grinding and polishing applications. It is suitable for craft carving, artificial limb polishing, and mould polishing.

Product Overview

Precision Grinding Solution

This micro precision electric grinder is a versatile tool engineered for delicate tasks requiring high control and accuracy. It is specifically designed for applications such as nail care, craft carving, denture and artificial limb polishing, as well as industrial mould polishing. With its ergonomic design and variable speed control, it provides the professional precision needed for intricate material work.

Technical Specifications

Control Modes

- Hand Control
- Foot Pedal Operation

Operational Features

Variable Speed • Forward Rotation • Reverse Rotation

Primary Applications

Nail Care, Craft Carving, Denture Polishing, Artificial Limb Polishing, Mould Polishing
