

Micro Precision Electric Grinder

This electric grinder is designed for precision grinding and polishing tasks. It is suitable for use on nails, craft carvings, and artificial limbs.

Overview

Precision Performance for Professional Tasks

The Micro Precision Electric Grinder is a versatile tool engineered for exacting grinding and polishing applications. Featuring a compact, ergonomic design, it offers superior handling and precise control for intricate work. With an integrated variable speed control and a robust, high-quality motor, this unit ensures smooth, efficient, and reliable operation across a variety of materials.

Technical Specifications

Model Identifier	JD400
Operation Modes	Forward, Reverse, Variable Speed

Applications

Compatible Materials

- Metals
- Plastics
- Ceramics

Ideal For

Hobbyists • Craftsmen • Professionals
