Overview

Smart Motion-Activated Illumination

This microwave sensor-controlled LED ceiling light offers an intelligent lighting solution for residential and commercial spaces. Featuring 30 high-brightness LEDs, it provides efficient illumination while ensuring energy savings through automatic motion detection. With highly adjustable settings for sensitivity, time delay, and ambient light thresholds, this fixture is perfectly suited for hallways, stairs, bathrooms, and living areas.

Performance & Lighting

Rated Power

15 W

Max Power

30 pcs

LED Quantity

LED Type

2835

Sensor Technology

Detection Specifications

Parameter	Value
Detection Angle	360°
Detection Range	2-5m (radii)
Installation Height	2.5-3.5m

Sensor Type

Microwave (5.8GHz CW electric wave)

Control & Settings

Adjustable Parameters

- Time Delay (12s - 12min)
- Ambient Light Threshold (10LUX - 2000LUX)
- Dimming Time (0s, 30min, 3h,)
- Detection Sensitivity

Electrical

Electrical Specifications

220-240VAC, 50/60Hz, Standby < 0.5W
