

Microwave Sensor LED Ceiling Light

This ceiling light features a microwave sensor for automatic on/off control. It is designed for hallways and corridors, offering convenience and energy savings.

Product Overview

Intelligent Illumination

This intelligent LED ceiling light features a built-in microwave sensor designed for automatic on/off control, making it an ideal energy-saving solution for corridors and hallways. The unit provides uniform illumination with a sleek, modern aesthetic suitable for professional environments. Built for durability and safety, it includes robust protection features and easy installation capabilities.

Sensor Specifications

Detection Range	8 m
Sensor Technology	Microwave
Sensor Adjustability	Adjustable Hold Time, Automatic On/Off

Lighting Performance

Brightness

1200 lm
Luminous Flux

Color Temperature	4000K
-------------------	-------

Construction & Safety

Safety Protections

Over-voltage Protection • Over-current Protection

Housing Material	Polycarbonate
