

Military Grade LED Flashlight with Red Signaling Wand

This is a robust and versatile military-grade flashlight designed for signaling and traffic control. It incorporates a bright LED light source with a translucent red wand attachment for clear signaling during day or night.

Product Overview

Military Grade Signaling Flashlight

This robust and versatile flashlight is engineered for demanding environments, making it an essential tool for military personnel, law enforcement, and emergency responders. It features a durable ABS construction and includes a specialized red signaling wand attachment for effective traffic control and communication. Designed for reliability, this unit offers a 5-hour runtime and an IP44 waterproof rating to ensure performance in varied weather conditions.
