

Mini 3D Optical Mouse

This mini 3D optical mouse features a key life cycle of upwards 3 million times and a resolution of 800 DPI. Its moving life is rated at 480km.

Product Overview

Compact Performance

The Mini 3D Browser Optical Mouse is a compact and reliable input device designed for efficiency. Featuring a high-resolution optical sensor and a durable build capable of over 3 million clicks, it ensures consistent performance for daily tasks. Its versatile connectivity options and small form factor make it an ideal choice for space-constrained workstations.
