## Product Overview

### Precision Mini Bolt Cutter

This drop-forged mini bolt cutter is engineered for precision cutting in confined spaces. Built with high-quality materials, it features a hardened body and specialized cutting blades designed to handle bolts, rods, and wires with ease. Its durable construction ensures long-lasting performance, while the ergonomic handle design provides the comfort and control necessary for repetitive tasks.

## Technical Specifications

Body Hardness	52 HRC
Blade Material	35HAC Steel
Blade Hardness	50 HRC

## Performance Metrics

### Max Cutting Diameter

**1.8 mm**

Max Diameter

## Product Features

### Key Features

- Drop forged construction
- Ergonomic handle design
- Designed for confined spaces
- Heat-treated body
