

Mini DC Inverter Arc Welding Machine

This mini DC inverter arc welding machine utilizes IGBT technology, providing a strong yet compact design with a high duty cycle. It is suitable for MMA welding of low carbon steel and low alloy steel.

Overview

Compact Arc Welding Solution

This Mini DC Inverter Arc Welding Machine is engineered for versatility and portability, making it an excellent choice for both professional workshops and DIY projects. Utilizing advanced IGBT technology, the unit provides stable arc performance and precise current control. Its compact design ensures easy transport and storage without compromising on the robust construction required for demanding welding tasks.

Performance Metrics

Rated Output Current

200 A

Maximum Current

Technical Specifications

Electrical Characteristics

Parameter	Value
Main Voltage	Variable (V)
Frequency	Hz
No-load Voltage	V
Rated Input Capacity	kVA

Rated Duty Cycle: 100 %

Physical Attributes

Unit Dimensions: Compact form factor (cm)

Total Weight: 0 KG

Features

Inverter Technology
IGBT • DC Inverter

Certifications: CE
