Overview

Compact Ventilation Solution

This mini duct ventilation fan is engineered for efficient air movement in confined spaces, making it an ideal choice for both residential and commercial ventilation systems. It features a robust design with a galvanized steel casing for corrosion resistance and a dynamically balanced impeller to ensure smooth, quiet operation. The unit is designed for easy installation and maintenance, providing a reliable and energy-efficient solution for improving air quality.

150 m³/h
Air Volume

43 dB
Noise Level

21 W
Power

Technical Specifications

Technical specifications, dimensions, and performance curves for various models.

Model Specifications

Model	Power (W)	Air Volume (m³/h)	Duct Diameter (mm)	Net Weight (kg)
DPT10-11	21	150	100	2.1
DPT10-11C	52	250	100	2.1
DPT15-34	40	300	150	5.5
DPT20-54	55	600	200	8.6
DPT20-75	285	1200	200	12.9
DPT25-76	300	1800	250	17.7

Key Features

Features

- 90° Connection design
- Intake and outlet in the same line
- Energy-saving motor
- Low noise operation
- Robust metal housing
